

72 The League — Sponsorship Talking Points

Opening: Why We Are Reaching Out

We are calling from Game of Life Sports. We run 72 The League, India's first officially sanctioned professional golf league, backed by DP World PGTI and recognized by the International Golf Federation. We just closed a Season 1 that outperformed nearly every one of our own targets, and Season 2 is confirmed for February and March in Pune and Mumbai, with six franchise teams and owners coming from serious business and sporting backgrounds. We wanted to bring this opportunity directly to you because your brand fits exactly the audience we have built this around.

Why Golf, Why This Property

Golf is not just a sport. It is where India's actual decision makers spend their time. Our audience is high net worth individuals, founders, CEOs, C suite executives, and elite club members, the people who control enterprise procurement, partnerships, and investment decisions. A partner is not simply buying reach with us, they are buying proximity to the people who make the decisions. Kapil Dev serves as our president at DP World PGTI, which gives the league instant credibility that crosses over from golf into India's much broader, cricket obsessed audience.

Proof It Works: Season 1 Results

This is not a pitch built on potential alone. We already have the numbers from Season 1.

We generated fifty six pieces of media coverage across national, online, and regional press, producing three crore rupees in PR value. We reached twenty nine million people cumulatively across social media, with eighty six million total impressions. Instagram alone reached three hundred and thirty five percent of its target views. Our broadcast on Eurosport reached between forty four thousand and ninety five thousand viewers per episode.

When we talk about visibility for a sponsor, we are not guessing. We are showing what already happened for our existing partners.

Why Golf Sponsorship Specifically

There is real data behind why this category of spend performs well. Fifty four percent of business professionals view golf as the sport of business, six times more than motorsports. Sporting sponsorship activations create three to five times higher emotional affinity than regular advertising, and sports sponsorships now drive actual purchase conversion, not just brand awareness. Brands like Rolex have stayed invested in golf for fifty nine years because the return on investment compounds over time. This is not a one season spend. It is a long term brand asset.

What We Can Offer

We have three sponsorship tiers.

The Title Sponsor tier is priced at five crore rupees and carries the highest visibility, placing the sponsor's name on the league itself.

The Powered By Sponsor tier is priced at three crore rupees and carries strong secondary branding. This is the tier currently held by IndusInd Bank.

The Associate Sponsor tier is priced at one crore rupees and offers a lighter entry point with real visibility, suited to a partner who wants to test the association first.

Every tier includes branding across jerseys, on course signage, broadcast and livestreams, event presence, and social and digital content. One sponsorship translates into hundreds of touchpoints across the year, not just during the two week league window. We also run Pro Am events and golf clinics across all six franchise cities throughout the year, along with networking and awards nights and curated international experiences, so this is a year round association rather than a two week flash.

Targets We Are Committing To

For Season 2, we are targeting fifty million or more in social views, impressions, and reach, an engagement rate of two to three percent on Instagram and LinkedIn, over one hundred pieces of user generated content, more than twenty articles in national and business press, and a three to five times engagement lift for the sponsor brand during the league window. These are the numbers we are holding ourselves accountable to.

Close

We will send over the full sponsorship deck so you can see the visuals, the schedule, and exactly what each tier includes. We would be happy to set up a call this week to walk you through it and figure out what makes the most sense for your brand.
